HOW IT WORKS

SEARCH PROTECTION

Search without being tracked.

Other search engines track your every search, from where you go to what you buy. We don't track you. Ever.

[Learn more](#)

WEB TRACKING PROTECTION

Stop creepy tracking from Facebook and Google.

DuckDuckGo's powerful tracker blocking, in our browser and extension, stops trackers and creepy ads before they even load, evading hidden data collectors and speeding up websites.

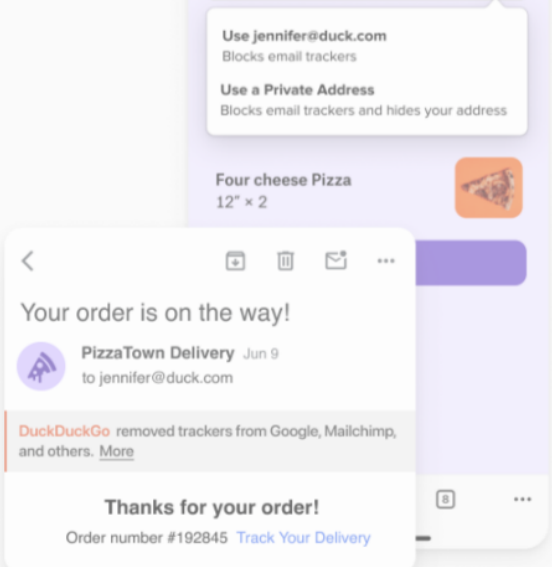

[Learn more](#)

EMAIL PROTECTION

Intercept and remove email trackers.

85% of emails sent through Duck Addresses contained hidden email trackers before we stripped them out. Email Protection zaps most trackers and forwards email to your regular inbox so you can read in peace.

[Learn more](#)

APP TRACKING PROTECTION

Block app trackers, day or night.

Over 96% of popular free Android apps we tested allow other companies to invade your privacy, like using your location to map everywhere you go. Stop most of their spying and take back control on Android!

* Available on Android

It's a myth that companies need to track you to make money.

DuckDuckGo has been free to use since day one, and private search ads have kept us profitable for nearly a decade. When you search for “car” we show you a car ad — it's that simple.

“The company best known for its search engine is launching a new set of tools aimed at creating an ‘easy button’ for protecting your data online.”

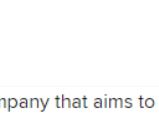

“Tackling email privacy has been a major goal for DuckDuckGo, as the company pushes for privacy-friendly methods for various online tasks.”

“It doesn’t allow targeted advertising, results are not based on your search history, and you’ll see fewer ads based on your search. It’s easy to use and install, too.”

“The 13-year-old company appears to be in a prime position to fulfill internet users’ increasing desire for privacy in an age of data leaks, breaches and scandals.”

Still have questions?

What is DuckDuckGo?

DuckDuckGo is an independent Internet privacy company that aims to make getting privacy simple and accessible for everyone. Our [free web browser](#) for [iOS](#), [Android](#), [Mac](#), and [Windows](#) lets you search and browse the web, but — unlike Google Search and Chrome — we don't track your searches or browsing history, and we block other companies from trying to track you, all by default.
